

Agero Deep Dive

Roadside Towing and Recovery Inc — 30 days, Jun 29 – Jul 28, 2026

The number

1,942 offers. 65% of everything you are sent. You won 710 — 36.6%.

965 of the misses are yours to fix. At your configured \$65/job that is roughly **\$62,700 a month**, of which **\$46,700 is tow work**.

But the headline number is not the finding. This is:

AGERO	OFFERS	ACCEPTED	UNANSWERED
Inside your staffed window (Mon–Fri 06:00–18:00)	1,000	60%	6%
Outside it	942	12%	63%

You are not bad at Agero. You are **absent** after 18:00 and on weekends. Inside your staffed window you accept 6 of every 10 Agero offers, which is a good number. Outside it you accept 1 in 8.

What the dashboard is currently telling you wrong

The board reports Allstate going unanswered 0.2% of the time against Agero's 33%, and flags it as a process difference — "same trucks, same staff." It is not a process difference.

ALLSTATE	OFFERS	ACCEPTED	CANCELED	EXPIRED
Inside window	283	67%	18%	1
Outside it	383	11%	77%	0

Identical collapse: 67% → 11% for Allstate, 60% → 12% for Agero. The only difference is the word the club writes down when you do not answer. **Agero says *Expired*. Allstate says *Cancelled*.**

Cancelled lands in the `client_withdrew` bucket, and `count_client_withdrew_as_recoverable: false` excludes that bucket from your recoverable total. So roughly **294 Allstate offers a month are missed work filed as "the client pulled it, not our fault."**

Agero looks like your problem client because Agero is the only one telling you the truth.

Across all five clients, tow and winch only: **inside the window 65% accepted; outside it, 13% accepted and 889 offers lost.**

Where the money actually is

Weekends, not nights. Saturday and Sunday midday is the densest hole in the data — 14:00, 15:00, 16:00 and 17:00 all run 95–100% missed at roughly 40 offers per hour.

CANDIDATE SHIFT	HRS/WK	TOWS MISSED /30D	MISSED PER HOUR	AT \$65
Sat+Sun 10:00–19:00	18	307	3.98	\$19,955
Sat+Sun 06:00–22:00	32	423	3.08	\$27,495
Mon–Fri 17:00–23:00	30	330	2.57	\$21,450
Mon–Fri 18:00–22:00	20	247	2.88	\$16,055
All week 22:00–06:00	56	219	0.91	\$14,235

Sunday currently accepts 1.7% of tow offers — 3 of 174. Saturday, 7.9%.

Action plan, in order

1. Staff Saturday and Sunday, 10:00–19:00

Eighteen hours a week. 307 tow offers a month are dying in them. Capture even half and it is about \$10,000 a month against one person's weekend wage. Nothing else in this dataset returns four jobs per staffed hour.

2. Then Monday–Friday, 17:00–23:00

330 more. Note that 17:00–18:00 alone accounts for 123 missed tows: your coverage ends exactly one hour before the evening peak, and 18:00 is the single busiest offer hour of the day.

3. Close off light service

431 offers a month producing 13 jobs — a 3% conversion on 14.4% of your total volume. And 63% of it lands in an hour where a tow was missed, competing for the same attention inside the same short decision window.

Ask Agero to stop sending:

SERVICE TYPE	OFFERS	JOBS
Tire Change	110	0
Battery Jump	73	3
Lock Out	58	4
Fuel Delivery	18	0
Accident Tow	19	0

Ask Allstate the same for its 110 light-service offers, which produced 4 jobs.

4. Interrogate "Equipment Not Available"

178 tow declines a month (\$11,570), 125 of them plain *Tow* — your core product. 100 of the 178 fall outside staffed hours, and they spike at 16:00–19:00 (77 of them).

That pattern says *nobody there to send*, not *wrong truck class*. If dispatch is using this reason as a catch-all, the equipment line on your board is fiction and the staffing case above is larger than it already looks.

5. Fix the Allstate blind spot in the model

Treat "Cancelled outside staffed hours" as a non-response, or at minimum surface it separately. As it stands the board hides roughly \$19,000 a month of missed Allstate work and prints a client comparison that points you at the wrong problem.

Three caveats to hold

- Dollars are jobs × \$65 from `job_value_by_client`, not revenue. The `amount` field is `0` on all 2,996 records. Every figure here is a job count priced by your configuration.
- The week of Jul 27 looks excellent — ignore it. 60% accepted, 14% unanswered, but it is Monday and Tuesday only, 101 offers, no weekend yet. The weekend is what drags the average down.
- `responded_at` is empty on every record, so response latency cannot be measured. The "3-minute median decision window" cited in `MISSED_WORK_MODEL.md` is not verifiable from this data.

Appendix — supporting detail

A. Agero funnel, all service classes

BUCKET	OFFERS	SHARE
Won	710	36.6%
No response (expired)	648	33.4%
Declined	316	16.3%
Client withdrew	267	13.7%
Accept failed	1	0.1%

Recoverable (declined + no response + accept failed): 965 = 49.7% of offers.

B. Agero by service class

CLASS	OFFERS	WON	RATE	UNANSWERED	DECLINED	WITHDREW
tow	1,660	700	42.2%	512	189	258
light_service	259	7	2.7%	123	123	6
winch_out	22	2	9.1%	13	4	3

Work you want (tow + winch_out): **1,682 offers, 702 won (41.7%), 719 recoverable ≈ \$46,735/30d.** Of those, **525 were simply never answered** (≈ \$34,125/30d).

C. Agero by hour of day — tow and winch only

Blind spot = 5 or more offers and 35%+ unanswered, per your `rules.yaml` .

HOUR	OFFERS	WON	UNANSWERED	RATE	
00:00	35	11	10	28.6%	
01:00	27	4	17	63.0%	blind spot
02:00	14	1	8	57.1%	blind spot
03:00	7	0	5	71.4%	blind spot
04:00	20	4	13	65.0%	blind spot
05:00	46	28	6	13.0%	
06:00	93	65	9	9.7%	
07:00	66	47	10	15.2%	
08:00	78	51	8	10.3%	
09:00	82	65	8	9.8%	
10:00	106	69	11	10.4%	
11:00	96	58	15	15.6%	
12:00	104	56	16	15.4%	
13:00	115	63	20	17.4%	
14:00	107	51	23	21.5%	
15:00	94	38	27	28.7%	
16:00	95	22	26	27.4%	
17:00	108	14	59	54.6%	blind spot
18:00	113	20	64	56.6%	blind spot
19:00	66	6	38	57.6%	blind spot
20:00	76	14	51	67.1%	blind spot
21:00	62	5	46	74.2%	blind spot
22:00	38	2	20	52.6%	blind spot
23:00	34	8	15	44.1%	blind spot

Sixty hour-of-week cells qualify as blind spots, accounting for **438 lost jobs** ($\approx \$28,470/30d$). The worst: Sun 18:00 (15 of 16 missed), Sat 18:00 (15 of 21), Sun 15:00 (14 of 15), Sun 14:00 (13 of 13), Sat 16:00 (13 of 13).

D. Agero by day of week — tow and winch only

DAY	OFFERS	WON	RATE	UNANSWERED	RATE
Mon	347	180	51.9%	44	12.7%
Tue	261	158	60.5%	45	17.2%
Wed	253	130	51.4%	44	17.4%
Thu	252	121	48.0%	56	22.2%
Fri	218	96	44.0%	54	24.8%
Sat	177	14	7.9%	126	71.2%
Sun	174	3	1.7%	156	89.7%

E. Weekend hour by hour — all clients, tow and winch

HOUR	OFFERS	ACCEPTED	MISSED	MISSED %
06:00	12	0	12	100%
07:00	15	1	13	87%
08:00	19	4	11	58%
09:00	20	1	16	80%
10:00	19	1	17	89%
11:00	39	1	32	82%
12:00	40	3	31	78%
13:00	30	0	28	93%
14:00	38	0	38	100%
15:00	40	0	40	100%
16:00	42	0	41	98%
17:00	40	0	38	95%
18:00	49	4	42	86%
19:00	31	2	22	71%
20:00	23	0	22	96%
21:00	22	1	20	91%
22:00	16	2	14	88%

"Missed" here counts expired offers plus offers cancelled outside staffed hours — see the Allstate note above.

F. Why you said no — Agero declines

REASON	DECLINES	OF WHICH TOW/WINCH
Equipment Not Available	239	137
No Drivers Available	30	19
Other	25	18
Out of Service Area	17	16
Not Enough Information	5	3

G. Client comparison — tow and winch only

CLIENT	OFFERS	WON	RATE	UNANSWERED	RATE	DECLINED
Agero (Swoop)	1,682	702	41.7%	525	31.2%	193
Allstate	556	227	40.8%	1	0.2%	40
NSD	190	68	35.8%	68	35.8%	0
Urgent.ly	67	26	38.8%	18	26.9%	5
Allied Dispatch Solutions	63	28	44.4%	22	34.9%	0

Allstate's 0.2% is the reporting artifact described above, not a better result.

H. Trend by week — Agero, tow and winch

WEEK OF	OFFERS	WON	RATE	UNANSWERED	RATE
Jun 29	437	153	35.0%	170	38.9%
Jul 06	389	176	45.2%	102	26.2%
Jul 13	392	172	43.9%	100	25.5%
Jul 20	363	140	38.6%	139	38.3%
Jul 27 (<i>partial</i> — 2 weekdays)	101	61	60.4%	14	13.9%

I. Client withdrawals — Agero, tow and winch

261 offers Agero pulled back, 15.5% of the work you want.

RAW STATUS	COUNT
Cancelled	174
Rejected By Motor Club	38
Service Failure Confirmed	25
GOA Approved By Motor Club	24

Analysis run against the 30-day backfill in `data/towbook.db`, Jun 29 – Jul 28 2026, using this company's own bucket, coverage and blind-spot rules from `config/rules.yaml` and `config/companies.yaml`. Timezone America/Detroit.
